SUMMARY

I am a Full Stack Developer specializing in JavaScript, React, and Node.js. I excel in building responsive interfaces with HTML, CSS, and frameworks like Bootstrap, Flowbite, and Tailwind. Proficient in Redux Toolkit and experienced in deploying projects on Firebase, Netlify, and Render. While a beginner with TypeScript, I'm committed to continuous learning. Skilled in Git version control, I'm eager to contribute to dynamic development teams

EXPERIENCE

Cyber Infrastructure Service, Indore: Trainee

June 2023 - June 2024

- Contributed significantly to a critical React client project during a six-month internship with guidance from a senior developer.
- Actively involved in optimizing software performance by modifying existing code to align with new requirements and integrating innovative features.
- Played a pivotal role in maintaining software performance through regular updates, ensuring compatibility and responsiveness to user needs.
