Summary

"I am an adaptable Full Stack Developer specializing in JavaScript, ReactJS, and Node.js. Skilled in creating responsive interfaces with HTML, CSS, and frameworks like Bootstrap, Flowbite, and Tailwind. Proficient in state management using Redux Toolkit, with practical experience in React, PWAs, and Node.js. I've deployed a project on Firebase, demonstrating deployment skills. While beginner level with TypeScript, I'm committed to continuous learning. Experienced in Git version control, I'm eager to contribute to dynamic development teams."

Experience

Cyber Infrastructure Service   june2023-present

trainee   Indore

🔗 https://www.cisin.com/

- Contributed significantly to a critical React client project during a six-month internship with guidance from a senior developer.
- Actively involved in optimizing software performance by modifying existing code to align with new requirements and integrating innovative features.
- Played a pivotal role in maintaining software performance through regular updates, ensuring compatibility and responsiveness to user needs.

Education

Rajiv Gandhi University   August 2019-June 2023

Information Technology   Engineering

8.00 CGPA

Projects

Bollywood Hungama   September2023-October 2023

Web app include all Bollywood and SouthMovies

🔗 https://movieproject-e1e03.web.app

- Developed a React+Firebase project that compiles Bollywood and South cinema movies.
- Implemented user profile creation similar to platforms like Amazon Prime.
- Enabled user authentication via phone OTP verification for secure access.
- Ensured responsive design and functionality across various viewing devices.
- Successfully completed this project during the internship period.

React, bootstrap, customcss, firebase

Hotstar Clone   Novemeber 2023 -December 2023

Web App Clone

🔗 https://drive.google.com/drive/folders/1V1hLjM2SAKrFDCnji0r2KR9r7Y6sfzW4?usp=drive_link

- Contributed as a React developer in a group demo project under CIS mentor guidance.
- Showcased expertise in React, Node.js, with a Hotstar Streaming Web App Clone.
- Upheld industry standards in schema design, coding, and React component organization.
- Engaged in practical, hands-on learning within a collaborative group setting.
- Created a transformative learning experience through project development.
- Shared project features via a demo video for clarity.
- Welcomed collaboration and contributions on the GitHub repository.
- Acknowledged minor bugs, expressing commitment to resolution.
